Summary

I have medium skill in front end, and backend web development. Some experience on stages of the development cycle for dynamic web projects. Not bad in numerous programming languages including HTML, PHP(codeigniter), JavaScript, CSS, Node js, Vue Js, Python,C++,C,JAVA and MySQL.

Skill Highlights

- Real-time web apps development(full stack).
- Machine Learning
- Network Configuration
- Software Testing(white box)
- Time management skill on delivering projects on time.

Education

- 5th year student of **BSc Degree in Computer Science and Engineering field** in Adama Science and Technology University.

Work History

- I have provided some projects to my University and other institutions
For example:
 - Student Gift management system for Ethiopian elementary school(an idea from Teyayezen Ethiopia charitable organization and licenced by ministry of education...it is almost completed and 80% tested).
 - File sharing system for my university.... Will be deployed soon)

And I have 3 projects in progress....(for example visit www.emanuel.caretechadama.com)

#NB, for more information, please call me from 11:00am to 12:00 am local time,, thank you.
